

Certificate Course in Project Management for Eye Care

September 01 - 15, 2020

This Project Management course is designed to help you to excel in planning and execution of projects. The course offers appropriate knowledge, tools, attitude and skills necessary for effective execution of projects and programmes. This course will enable you to:

- Develop a comprehensive knowledge about the various elements of a project
- Develop an execution plan (Manual of operations) detailing the various activities and resource requirements in terms of human resources, materials and money for effective execution of the project
- Prepare cash flow based on the project budget and activities to help timely flow of funds
- Set up an information system for effective monitoring of the project activities and financials
- Design and execute periodic evaluation of the project

Who are the target audiences?

This course is specially designed to meet the needs of professionals responsible for project and programme implementation. So far we have trained : 116 from Eight Countries

Government Sector: District Programme Officers for Blindness Control, Senior Ophthalmic Assistants.

Voluntary & Private Sector: Managers, Project Coordinators / Project Managers and Administrative Staff involved in managing projects in their organizations.

All participants will need to be nominated either by their own organization or by the funding agency.

Pre - requisite

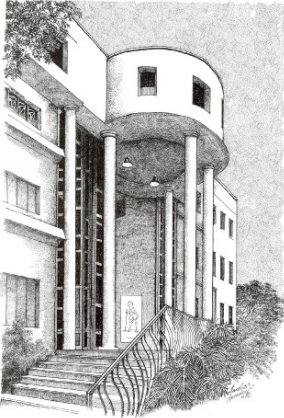

All participants should come with a real project that they are managing in their organization or approved for implementation. This project will form the basis for

learning the concepts and practical application of the same.

Language: Working knowledge in English since it will be the medium of instruction

These participants worked on detailed project management plan for a range of projects such as:

- West Bengal Childhood Blindness Prevention - Ramakrishna Mission Hospital, Itanagar
 - Refractive Error Programme - VMANN, Haldia
 - Diabetic Retinopathy Project, Greater Lions Eye Hospital, Siliguri
 - Expanded Child Eye Care Services in Vietnam's Central Region, Vietnam
 - QIDS Eyes: Comprehensive School Eye Health Pilot Project - Cape Town, South Africa
- Diabetic Retinopathy Mitigation Project in East and North East Delhi

About us

The Lions Aravind Institute of Community Ophthalmology (LAICO) is the training and consultancy arm of Aravind Eye Care System, which is among the world's largest eye care providers. Established in 1992, LAICO began with a mission to "contribute to the prevention and control of global blindness through consultancy, teaching, training, research, publications and advocacy in eye care". LAICO was mandated to support eye care programmes globally, in order to increase and improve eye care service. Till date, LAICO has worked with over 354 eye hospitals from India and other countries through a collaborative process of consultancy and capacity building. It is conservatively estimated that this has resulted in an additional 800,000 eye surgeries being done annually.
