

# EYEXCEL GLOBAL

## Excellence in eye care training

July 22 – 25, 2024

*Are you trying to improve the quality of training at your hospital?*

*Are you having trouble balancing patient care as well as training?*

*Are you using appropriate training methods in your classroom, to ensure learning?*

If your hospital is trying to set up, improve or expand a training programme then this course is for you.

### **How will this course help you?**

This course prepares eye hospital teams to design and deliver high-quality training.

By the end of the course participants will be able to:

- Use principles of adult education to maximize the learning of your trainees
- Adopt a curriculum that is suitable for your training
- Develop and impart training that will result in effective performance in the workplace
- Use student-centred teaching methods in your training
- Develop the necessary administrative infrastructure for the training centre
- Understand the benefits and costs of delivering training via IT and the web
- Plan for a sustainable allied ophthalmic personnel training programme
- Launch a new training programme; as well as improve or expand an existing programme

### **Modules will closely follow these objectives and include**

- Designing a training programme
- Managing a training programme
- Using technology for training
- Developing and sustaining your training programme

### **Team training**

- This course is for eye care institutions that provide any kind of training - either long term or short term courses, skill-based training or continued professional development (CPD) programmes.
- This is a team-training course. Institutions are expected to nominate a team: two to three participants representing the training director, training coordinator, and lead faculty. Ideal applications will include all three.

**Over the past 14 years, 543 participants from 205 institutions across 25 countries** have participated in Eyexcel. Teams worked on various training programmes ranging from *improving their training administration* to *setting up a training course from scratch*. The alumni institutions include:

- City Eye Hospital, Nairobi, Kenya
- Indian Institute of Public Health, Hyderabad, India
- Deep Eye Care Foundation, Rangpur, Bangladesh
- Lumbini Eye Institute, Nepal
- HV Desai Eye Hospital, Pune, India
- Shroff's Charity Eye Hospital, Delhi, India
- Komfo Anokye Teaching Hospital, Kumasi, Ghana
- Christian Medical College, Vellore, India
